

MAGNA SELECTION GUIDE

MAGNA1
THE SOLID
CHOICE

MAGNA3
THE INTELLIGENT
CHOICE

Fieldbus connectivity for BMS (Bacnet MS/TP, Modbus RTU, LONWorks, Ethernet)		•
Heat energy monitor, Trend plots on performance and lifetime consumption data		•
Operating/Ready Relay, digital MIN/MAX curve, 0-10/4-20 mA feedback for sensor/input control		•
Twin pump function via radio	• (only alternating)	•
Grundfos GO communication	• (via IR)	• (via radio)
Fault relay and digital start/stop for basic BMS communication	•	•
